

Transition and Society  
Poem 280 by  
LEON JORDAN

A form of campaigning is a petition  
Fate's way is destiny  
We all make transitions in society  
Treasure is put into a chest  
Society wants to see us repressed

A code of honour in middle ages was chivalry  
Transition is necessary in today's society  
A mini demon is a devil  
Transition takes us to the next level

Locks can be opened by a key  
We all move up in society  
The opposite of yes is no  
Society doesn't always let us grow

Society can be very corrupt  
That is why we make journeys, so we can move up  
Flora is the goddess of spring  
Society is sometimes against transitioning

We make transitions every day  
Society has an important role to play  
A face-off is a confrontation  
Transition equals a destination
