

FREE half day workshop: Harnessing innovation to meet the challenges of the future - “iplanit in action”

Date	Location	Presented by
26th January	Liverpool	Cymrd Rahn
22nd February	London	Three Cs
21st March	Birmingham	Advance
22nd March	Glasgow	C-Change

In a recent presentation at the Association of Supported Living National Conference there was a clear message that *“providers must embrace the use of innovation and new technologies to meet the strategic challenges of the future”*.

You are invited to attend a **FREE** afternoon workshop giving you the chance to hear from providers from the UK, the Republic of Ireland and Australia who have done this by implementing the iplanit solution.

You will hear about the real difference the service is making in terms of engaging people, enabling staff to stay focused on people’s goals, saving time and enabling more efficient, accurate reporting of people’s outcomes against key performance indicators.

Context

iplanit is a web based service which helps providers put the action into people’s plans, evidence outcomes, demonstrate service value, and cut the costs of service delivery. Since its launch in 2009, iplanit has become the market leading solution in this area for the provider sector. A rapidly growing list of over 30 organisations subscribe to the iplanit service and these providers support in excess of 25,000 individuals.

We will also be sharing the results of our recent customer survey. The results detail the benefits which clients are finding as they roll out the service with people and supporters across their organisations.

This is YOUR opportunity to hear how innovation and new technology can help providers meet the challenges of the future based on real life, practical feedback from iplanit customers.

Who it's for?

These workshops are for anyone who has an interest in ensuring people are supported to achieve their goals/outcomes and in demonstrating the value that providers deliver to commissioners/inspectors.

This is likely to include:

- People and families
- Chief Executives
- Operations Directors
- Area/Regional Managers
- Support workers
- Commissioners
- Care Managers
- Person Centred Planning Coordinators
- IT Managers

Speakers include:

Sally Warren Paradigm
Declan Kelly Aspirico

PLUS one of the following:

Jo Clare Three Cs
Susan Storrar Advance Housing and Support
June Dunlop C-Change
Lisajane Humpreys Cymrd Rahn
