# iplanit – More information

**iplanit** PUTTING THE ACTION INTO PLANNING

**PERSON CENTRED PLANNING**

*Make a real positive difference in people's lives*

**iplanit** Putting the action into planning

iplanit is the first comprehensive IT solution that takes Person Centred Planning to a different level. A service that will benefit people and their families, support providers and commissioners – ultimately producing much more positive change in the lives of people. It is based on a range of proven, secure internet services and offers a cost-effective, easy to use application for everyone alongside existing Person Centred Planning solutions. It will really enhance the likelihood of success for people.

For 10 years Person Centred Planning has been at the forefront of many policy initiatives, training plans and the focus of much effort by lots of services. To date, it has not always fulfilled its promise, with many plans gathering dust on shelves or not being implemented. iplanit is the missing link to put the action back into planning.

**Person Centred Planning**

- Has the promise of lots of real positive change for people
- For some people it achieves this but for many others
- One thing is plain: it could do this for everyone
- Making People Plan and Making People First courses to build Person Centred Planning as the vehicle for achieving real change for people

**Putting the Action into Planning**

|               |            |
|---------------|------------|
| 3rd November  | London     |
| 4th November  | Taunton    |
| 10th November | Birmingham |
| 11th November | Cambridge  |
| 17th November | Manchester |
| 15th November | Newcastle  |

A series of regional conferences exploring the impact of Person Centred Planning ten years on, the challenges still faced, and a focus on practical evidence based and technology based solutions to enable planning to really make a difference.
