In this workshop, we will also explore the Reach toolkit so that people leave the workshop knowing how they can use the films, conversations and other resources to bring the Reach Standards to life.

Sally did a fantastic job. A lot of practical information was delivered, but most impressive of all was how she tailored the course based on the problems we were having within the service and was able to tackle them in a way that provided insight to the staff and realisation, followed by tools and action plans to make change that staff engaged with and committed to.

4 'REACH FOR MY LIFE'

Who for: For organisational trustees and staff plus self-advocates and families.

We can create a small-scale workshop or a larger event that will help people understand:

- what support for living (Supported Living) is.
- what The Reach Standards are.
- what people's rights are.
- share their ideas for improving the support in their lives.

Please contact us at hello@paradigm-uk.org to talk through what you need and we will design and cost the offer in direct response to your needs.

5 'BESPOKE TRAINING ACCORDING TO YOUR ORGANISATION'S NEEDS'

What we also love and also have deep experience of is creating a design offer that responds to organisational need. For example, we:

- were asked to facilitate 4 sessions with a team who were struggling to move from residential care to support for living.
- worked with a management team over offering 6 weekly team sessions over a year to support them in their drive to embed Reach within their organisation.

Please contact us at hello@paradigm-uk.org to talk through what you need and we will design and cost the offer in direct response to your needs.
